

AGENDA

1. 1st month Target & Plan
2. 1st week challenges
3. YTD Outcomes
4. Kim's perspective & proposal

REPORT & PROPOSAL

JULY 2026

HRBP

1. Targets & Actions

Target

Actions

1. **BD:** Approaching Clients
2. **MKT:** Uploading posts in multi-platforms
3. **Dev:** Complete the remaining product features and UI/UX.

2. 1st week challenges

Challenges & Issues

Kim's Actions

People

1. Proactive and willing to learn but **lacking hands-on exp**
2. Understand the overall direction, they are **not yet fully confident** in **executing tasks independently**
3. Performs well in planning, but when transitioning from planning to real execution, they often **become uncertain** and **require additional guidance**
4. Over-reliance on AI, **with insufficient human review** and validation of AI-generated outputs
5. Content is **fragmented** and **inconsistent** across platforms.
6. Visual identity is **not consistently** aligned with the brand kit.
7. Content is created from an internal perspective rather than **addressing the needs and pain points of end users**

1. **Checking-in daily** about the work -> encourage discussion at work to support promptly not until they complete work then
2. **Review all works** from Interns before posting (*that's also what they want as they would like to have Mentor's feedback and perspectives*)
3. Hold the **Weekly Catch-up** (Meeting) to report ***What we did – What challenge – What we do next***
4. **Setup some SOPs** at work:
 - 4.1. Content Posting Workflows
 - 4.2. Branding both internal & external (from inside to outside)
 - 4.3. Design package for posting on social Media;
5. **1-1 Coaching**

Product

1. Website UI/UX is **not yet production-ready**.
2. Several **key features** and **user flows** are **still incomplete** (e.g., warning messages for Employers and Candidates).
3. Website **content is limited** and primarily consists of placeholder/test information.
4. Driving traffic at this stage **may be counterproductive**, as visitors are unlikely to find sufficient value, potentially resulting in poor first impressions, reduced trust, and lower retention.

1. **Follow up** with the Dev team **and align** on a committed **timeline**.
2. **Eliminate all fake and test data** before driving real users to the website.
3. **Standardize content across all platforms**, ensuring every post consistently directs users to the official website.
4. **Enrich the platform with valuable, real content**.
 - 4.1. Publish real job opportunities as a daily task for the Intern team.
 - 4.2. Expand the organic user base by proactively engaging TA and HR professionals.

3. Outcomes YTD (July 13th)

Outcomes

**Next week
(Jul 13-17)**

BD (Minh)

- 1st week: 43 Leads > 14 Follow-ups (sms only) -> 2 Signups -> conversion rate: 4.7% (2/43)
- 2nd week: 20 Leads -> 4 Follow-ups (sms + call) -> 3 Signups -> conversion rate: 15% (3/20)
- 14 Job posting in JH website (organic)
- Enhancing Personal Branding and Employer Branding on LinkedIn: 2 personal Postings to hook to JH
Posting 1: <https://www.linkedin.com/feed/update/urn:li:activity:7480877505206308864/>
Posting 2: <https://www.linkedin.com/feed/update/urn:li:activity:7482660182846504960/>

Marketing

- Setup JH platforms (4 platforms)
- Completed Posting on platforms:
 - Facebook: 05
 - LinkedIn: 03
 - Threads: 6 Followers – 8.4 views
 - Zalo: 03
- Sync Avatar & Banner as Design Package

Social platforms of JH:

- LinkedIn <https://www.linkedin.com/company/jarvis-hire/?viewAsMember=true>
- Facebook: <https://www.facebook.com/JarvisHire>
- Zalo: <https://zalo.me/0358567669>
- Threads: https://www.threads.com/@jarvis_hire.tec?igshid=NTc4MTlwNjQ2YQ==

Stick-to plan for Branding awareness and Data enhancing in all platforms

BD:

- Focus more on reaching Internal HR -> organic postings/signups (con-rate: 15%)
- Freelancer sources used for Data enhancing
- Create an end-to-end flow of reaching clients (SOPs)

MKT:

- Data enhancing on all platforms
- Continue publishing content to increase reach and expand content coverage across all social media platforms
- Building personal branding and employer branding at the same time

Dev:

- Create two landing page concepts for the Jarvis Hire website
- Continue fixing errors
- Complete Warning feature for Employers & Candidates

4. Kim's Perspective & Proposal

Perspectives

Proposal / Suggestions

Content & Branding

1. Proactive team members but lack of hands-on experience -> **needs closely coaching and mentoring**
2. Postings & contents are not consistent on multiple platforms

1. Kim would like to support the **Content review** before posting & uploading (*Ongoing*)
2. Standardize the **Designs** aligned with Brand kit and Design package (*Done*)

Talent Pool

1. Ownership of candidate screening and interviewing for recruitment/hunting requests is not yet clearly defined
2. No dedicated owner is responsible for candidate pre-screening and early engagement, limiting our ability to build a qualified talent pool for future hiring needs

3. Kim can be in charge of building **Talent pool** pre-interview and interview stage:
 - 3.1 Initially, Kim might be fully in charge
 - 3.2 Build-up a Pre-interview & Interview Kit for training others
 - 3.3 Internal Training

(As for long term, BD will play the role of a TA)

High priority

Medium priority
