JARVIS HIRE

# September 2026

## Performance Report

Jarvis Hire · Platform metrics, sales pipeline and product updates

| 190 | 235 | 64% | 1 |
| --- | --- | --- | --- |
| New candidate accounts | CVs uploaded | Engagement rate | Contract signed |

# What we did in September

## WHAT WE DID

**Product** — **3 new releases**

| | |
|---|---|
| **New CV upload page** | UI built on user analytics; more candidates upload CVs |
| **AI Mockup interview** | Attracts new users; helps candidates prep for interviews |
| **CV Suggestions** | Suggests JD-relevant experience; speeds up our screening |

**Marketing** — **New channel: TikTok** alongside Facebook ads and Threads

**Sales** — **Focus on clients ready to pay**

Fee terms on the table with Tasco, Keyence and Ezocean. Candidates sourced for Tasco (Facebook ads) and Keyence (talent pool) to push contracts.

## RESULTS

**New candidate accounts**

190

+109% vs Aug (91)

**CVs uploaded**

235

+150% vs Aug (94)

**Contracts sent**

9

1 signed, 3 in review

**Engagement rate**

64%

Up from 45% in Aug

Sources: platform data, Google Analytics 4 and sales follow-up notes. Sep = 1–30 Sep 2026; contracts as of 1 Oct 2026.

# Candidate sign-ups doubled while JD intake dropped by design

### New candidate accounts

AUG

**91**

SEP

**190**

**+109%**

### CVs uploaded

AUG

**94**

SEP

**235**

**+150%**

### JDs created

AUG

**74**

SEP

**10**

**−86%**

62 → 10 (−84%) excluding internal accounts

### JDs published

AUG

**71**

SEP

**11**

**−85%**

September focused on sales, so JD volume was lower by design. Candidate supply still surged.

Sources: platform data (accounts, CVs, JDs) and Google Analytics 4 (traffic). Aug = 1–31 Aug 2026, Sep = 1–30 Sep 2026.

# Why JD volume dropped: we chose conversion over volume

BEFORE SEPTEMBER

## Collect JDs from companies

Companies welcomed us. But once we had candidates to quote, many were unwilling to pay, or did not reply.

SEPTEMBER

## Sell to clients who can pay

Focus on companies with a real hiring need and a budget for headhunting. We chose fewer JDs over a bigger pipeline.

| | |
|---|---|
| **JDs created** | **74 → 10** |
| **JDs published** | **71 → 11** |

More JDs did not mean more closed deals, so we put effort into selling to ready clients.

Sources: platform data (Aug vs Sep 2026) and sales follow-up notes.

# Website traffic halved, but visitors are far more likely to sign up

### Sessions

AUG

**5,280**

SEP

**2,648**

**−50%**

### New users

AUG

**3,907**

SEP

**1,722**

**−56%**

### Engagement rate

AUG

**45%**

SEP

**64%**

**+19 pts**

### Sign-up rate (accounts ÷ new users)

AUG

**2.3%**

SEP

**11.0%**

**×4.8**

Indicative

Sources: platform data (accounts, CVs, JDs) and Google Analytics 4 (traffic). Aug = 1–31 Aug 2026, Sep = 1–30 Sep 2026.

# Remaining visitors are higher quality and more engaged

### Key events

**66 → 494**

68% occur on the homepage

### Engagement time per session

**27.7s → 38.5s**

+39%

### Hanoi + HCMC share of users

**49% → 66%**

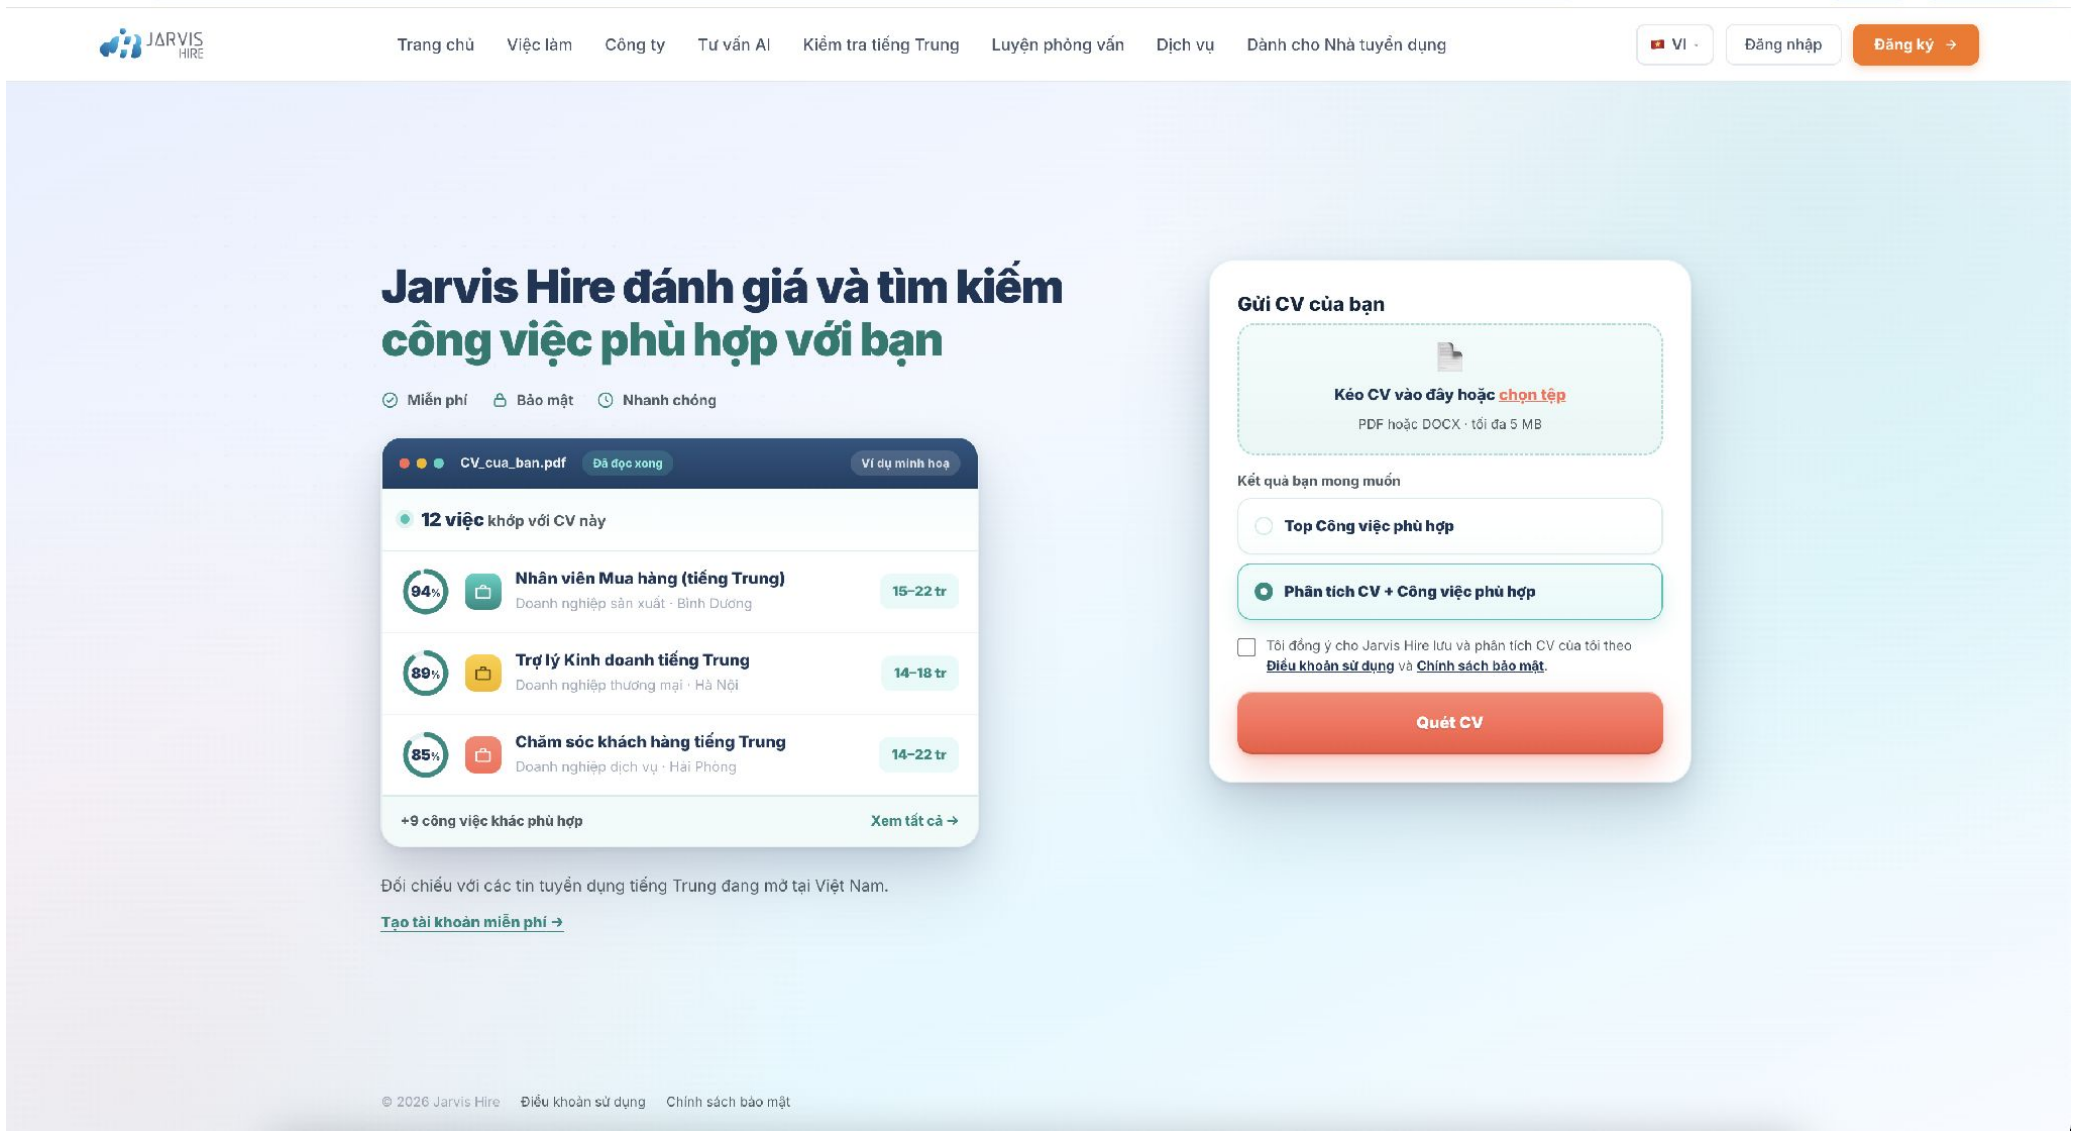

Larger share of users from the two main cities

### Upload your CV page

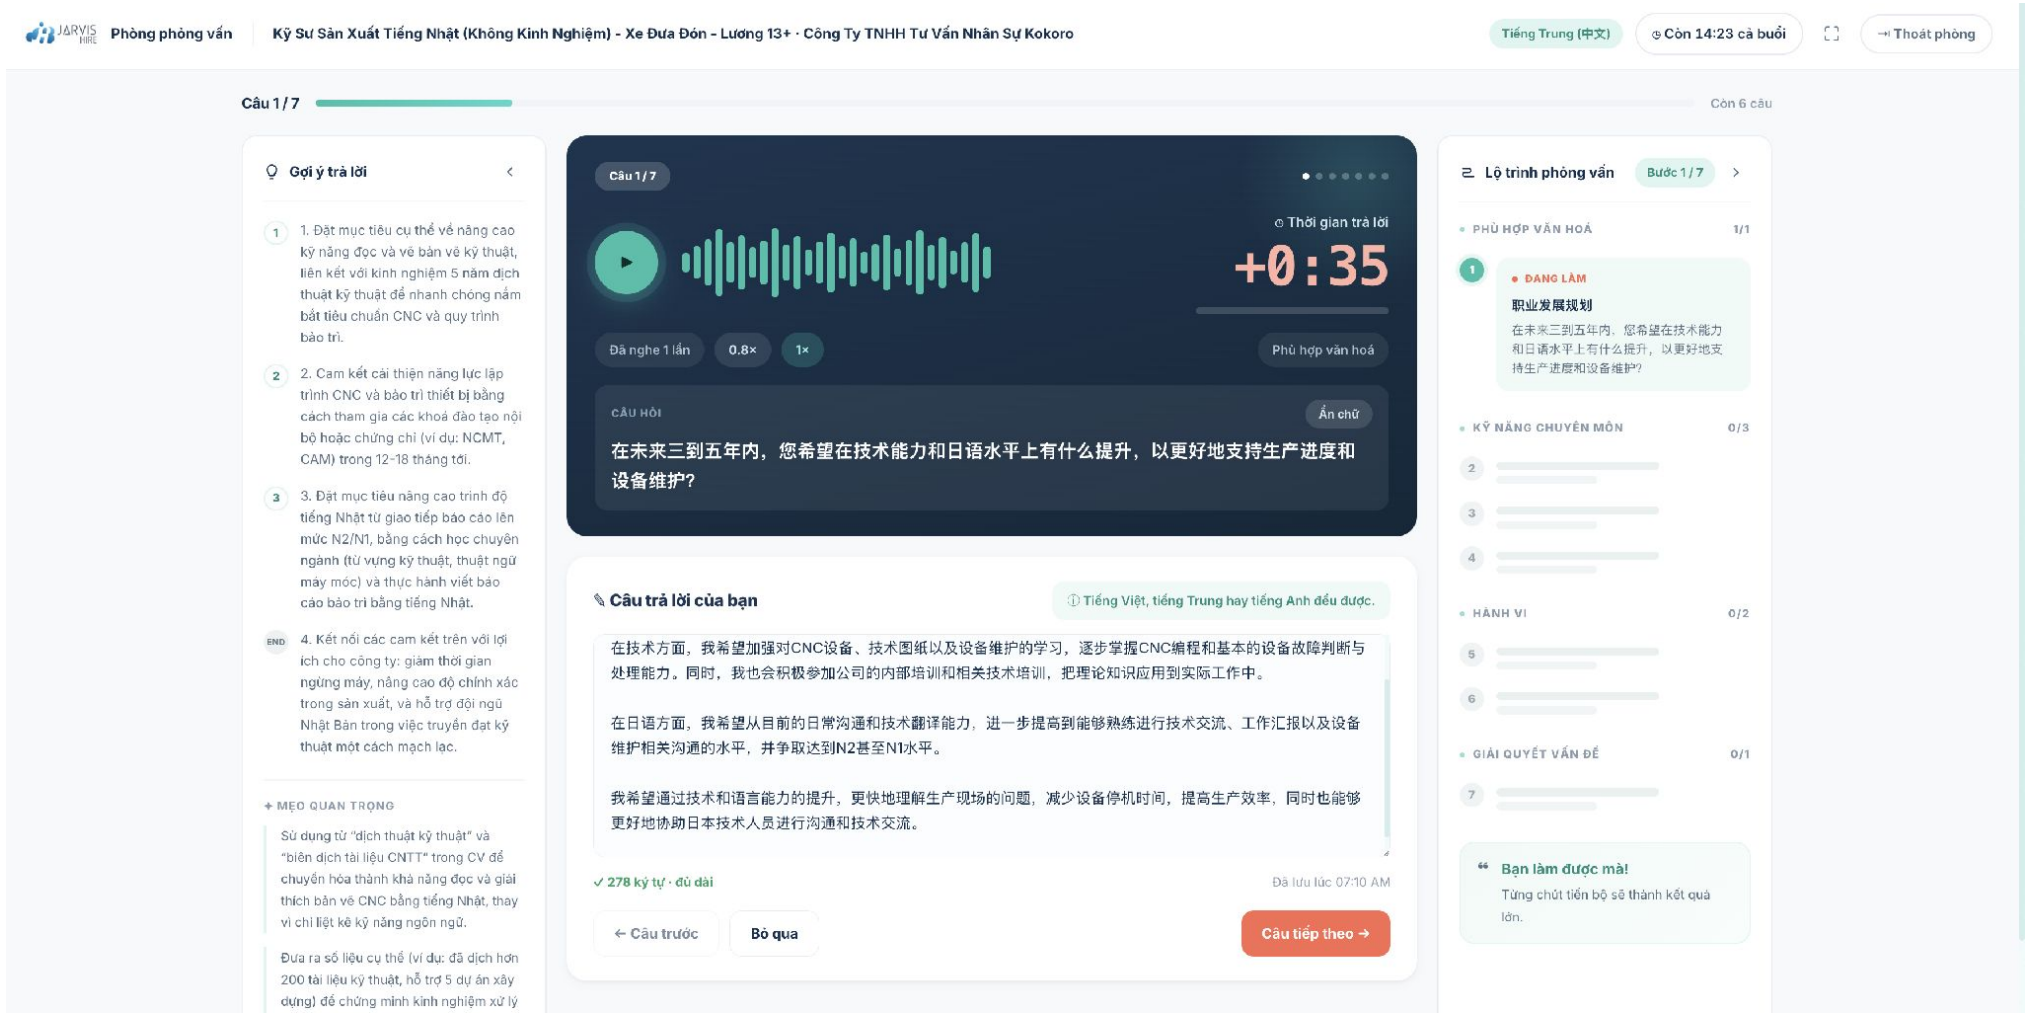

**734 → 780 sessions**

Key events 1 → 18; engagement 5.8s → 22.0s

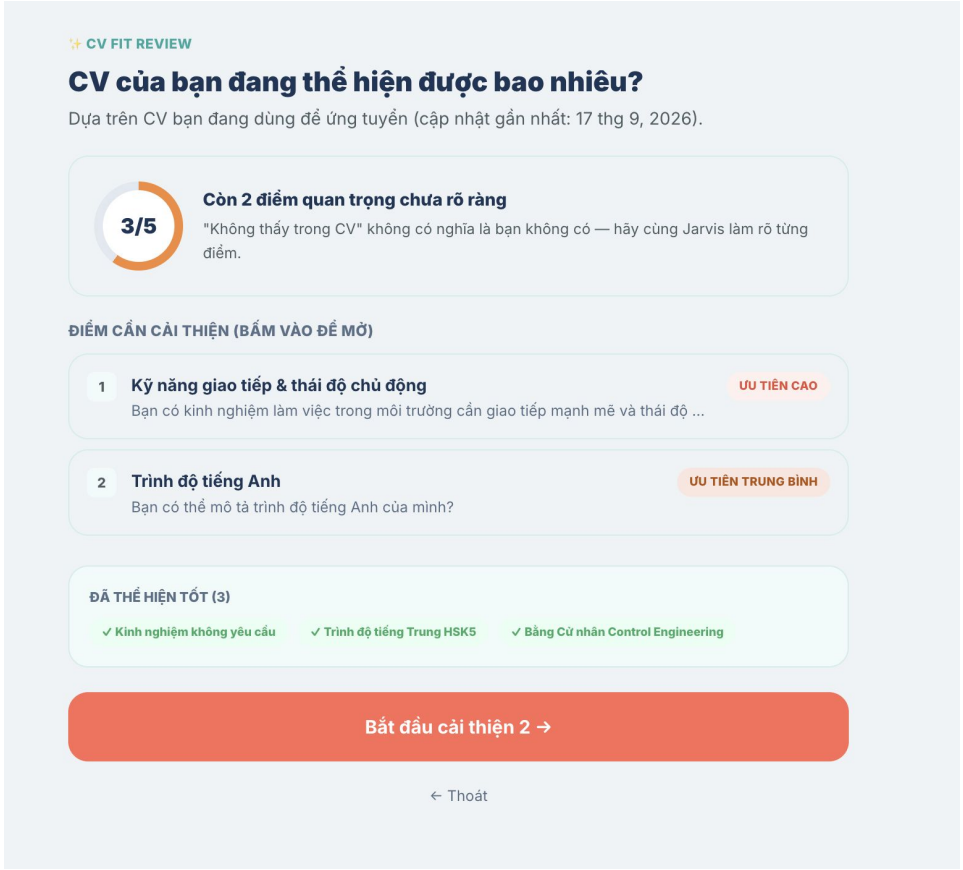

Sources: platform data (accounts, CVs, JDs) and Google Analytics 4 (traffic). Aug = 1–31 Aug 2026, Sep = 1–30 Sep 2026.

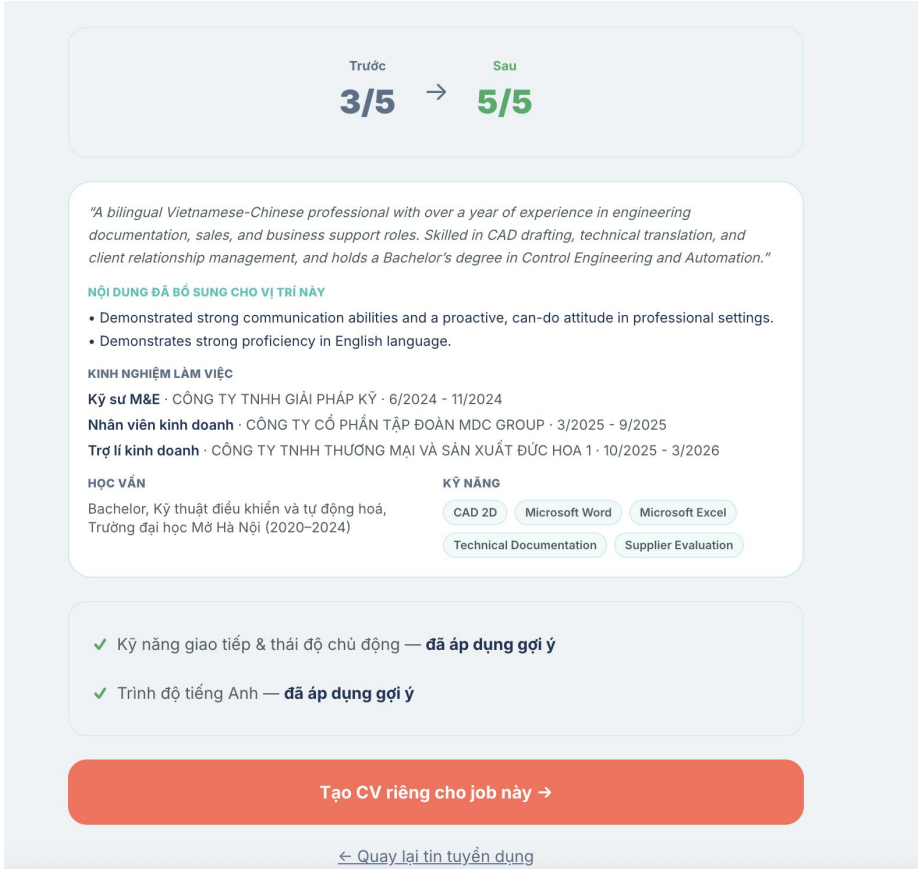

**Upload your CV page:** The new UI is based on user analytics and has successfully attracted more candidates to upload their CVs.

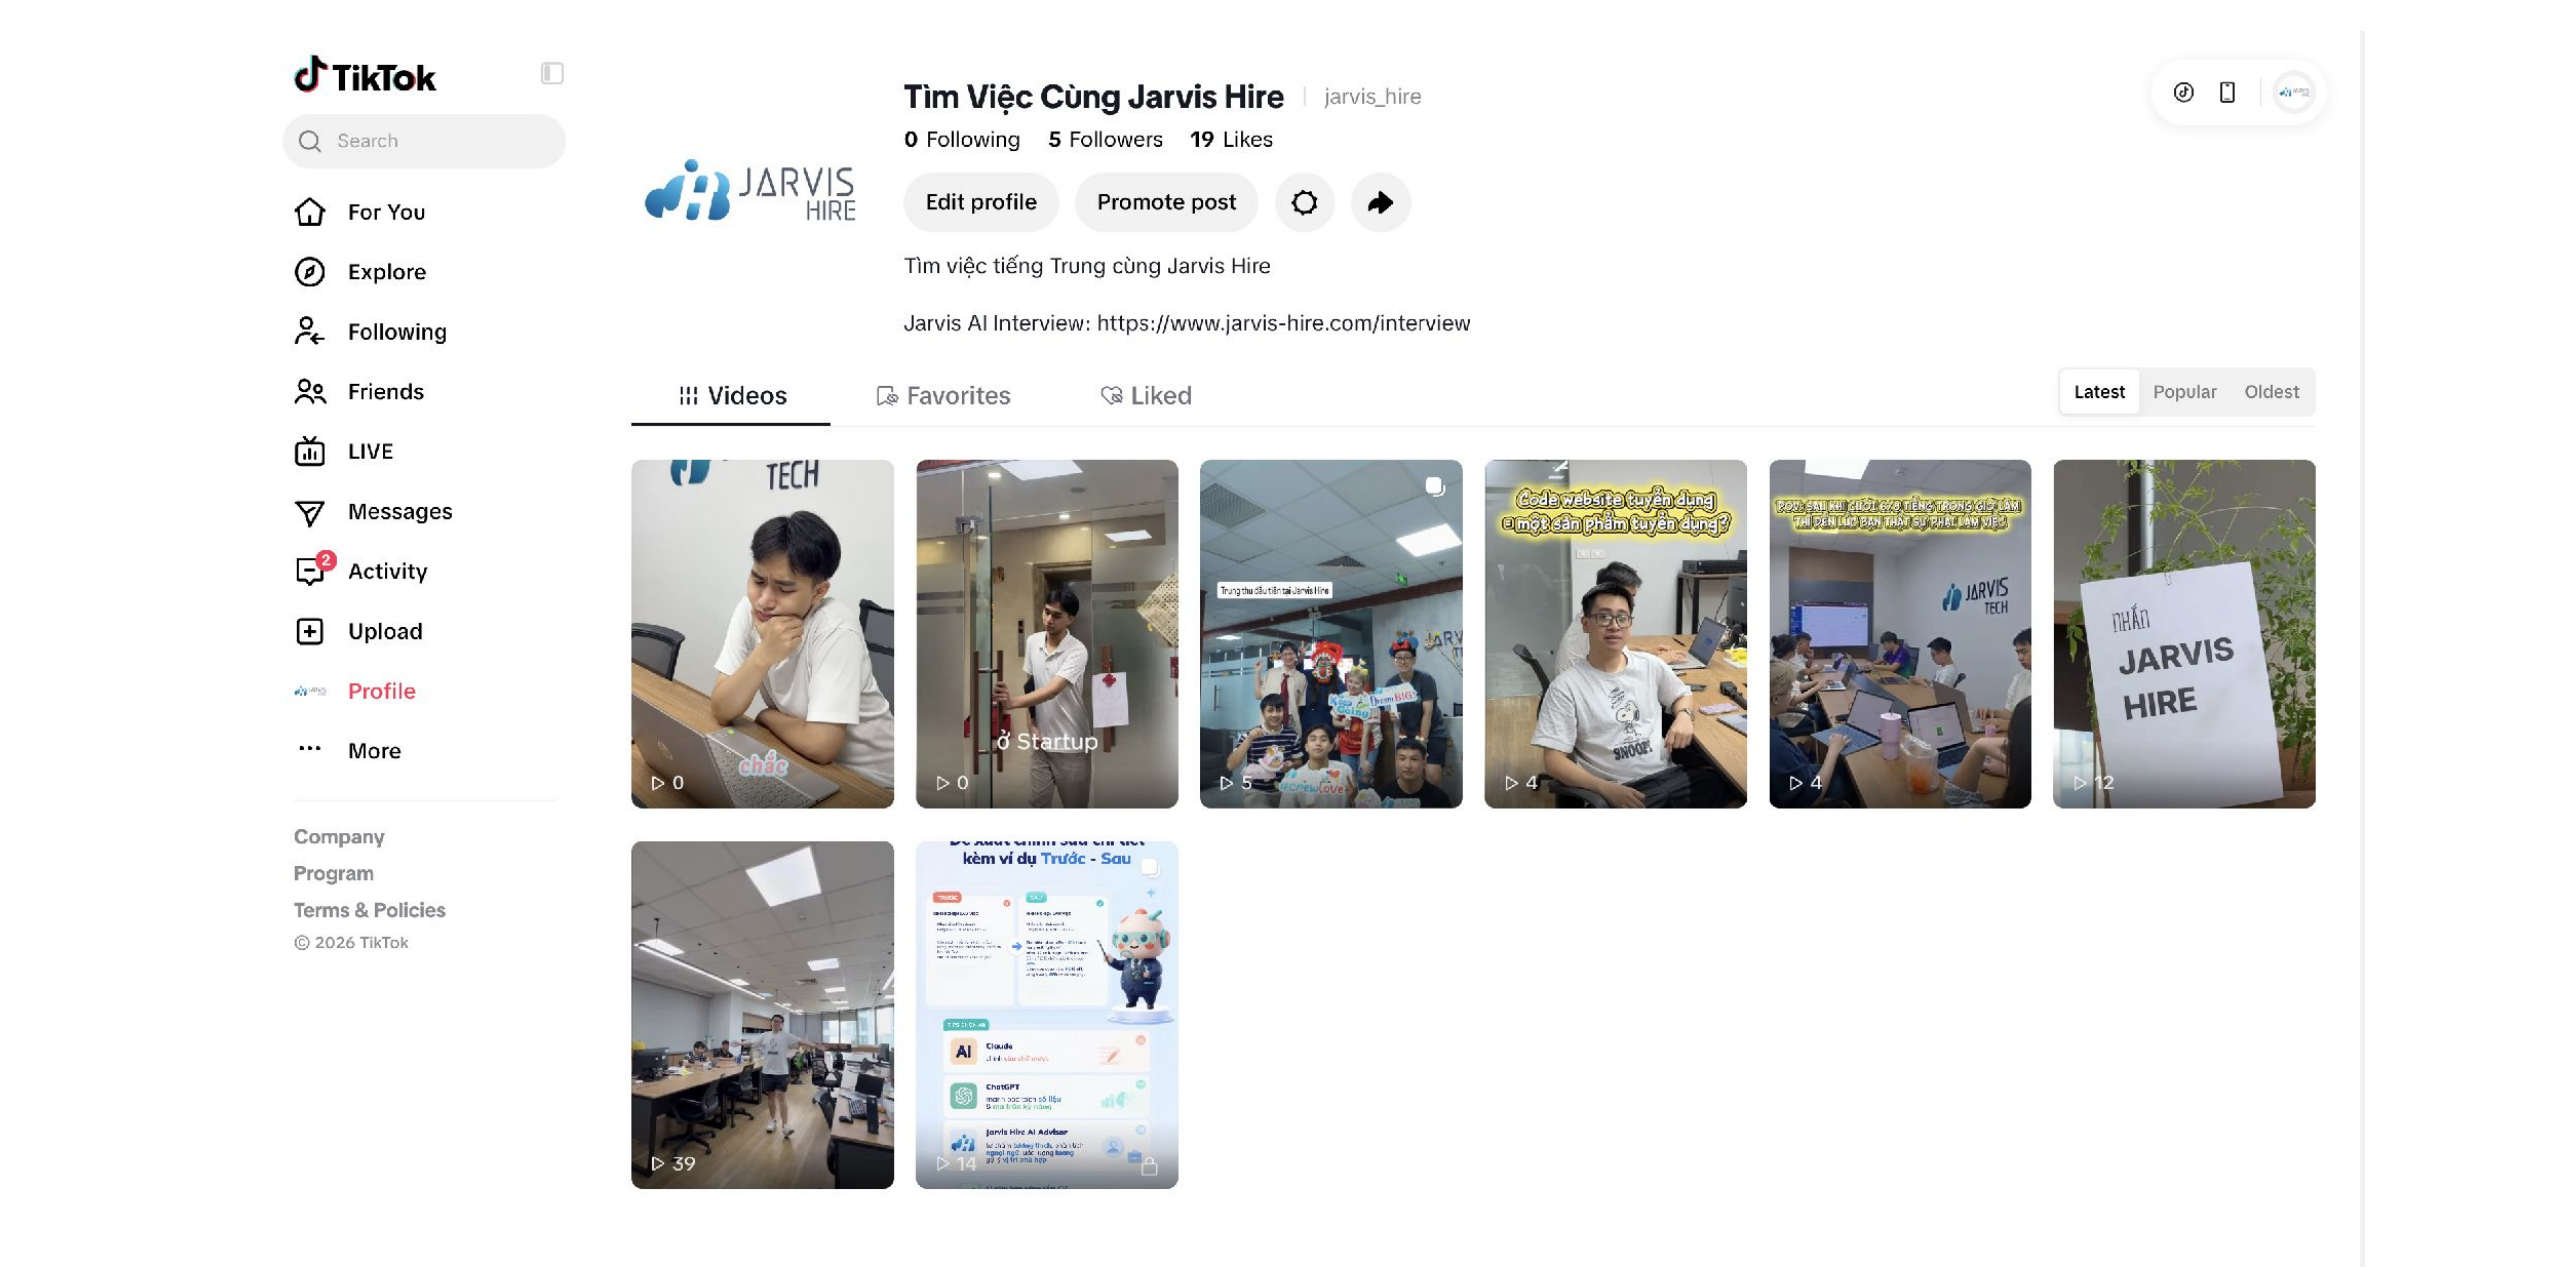

**New feature: AI Mockup interview** -> to attract new user and also help our candidate prepare the interview with our client

**New feature: CV Suggestions** → Based on each job description, the feature suggests relevant experience and highlights areas candidates can emphasize to better match the JD.
It also helps our internal team screen candidates more efficiently by providing quick, relevant questions to ask during screening, while helping candidates feel more confident and better prepared for the interview.

**New marketing channel - Tiktok**

# Sales pipeline: 1 contract signed, 3 under review

| Client | Stage | Fee | Latest status |
|---|---|---|---|
| **Ms. Mai's company (inbound, FB ads)** | **Negotiating** | VND 20M or 15% (to confirm) | Contract sent Sep 10. Fee terms differ across notes (VND 20M in report, 15% in Week 12). Awaiting deputy director approval, delayed repeatedly. |
| **Tasco** | **Signed by the client** | 15% of candidate's annual salary, paid 50/50 | Contract sent for signature Sep 18. First candidate rated "not quite fit", but a stronger candidate is now available and the contract is processing in parallel. |
| **Keyence** | **Contract in process** | 10% of candidate's annual salary, paid 80/20 | Contract sent Aug 26, negotiating an 80/20 payment split. Two open roles already sent; aligning on their hiring flow while the contract is unsigned. |
| **Ezocean** | **Revising terms** | 1 month gross salary, paid 70/30 | Accounting contract on hold since Sep 11 (client's boss changed the JD), 70/30 payment split. New senior Chinese-speaking accountant role added Sep 26. Client is fine; warranty terms to update (add 1-for-1 replacement). |

Payment split = % paid at installment 1 / installment 2 (e.g. 70/30)

# Stalled or lost: 10 cases, plus 10 clients with no need

| Client | Stage | Fee | Latest status |
|---|---|---|---|
| **CleverTap** | Contract sent, no reply | 12% (first mandate) | Contract sent Sep 23 (12% fee on first mandate). Client missed the Sep 24 meeting and has not replied to the Sep 30 email. |
| **Jack Technology** | Stalled | – | Contract sent and close to signing, but management paused the headhunting budget. |
| **Nhôm Quảng Kiến** | Stalled | – | Only asked about fees; weighing other hiring options. |
| **Thlin** | Blocked | – | Legal issue: may not have a company registered in Vietnam yet. |
| **Izbushka** | Lost | – | Contract sent, but management no longer approved. |
| **King Vietnam** | Lost | – | Contract sent; client did not accept our pricing. |
| **GBT** | Lost | – | Contract sent; client had already finished hiring, open to a future opportunity. |
| **Arin** | Lost | – | Client hired through other headhunters. |
| **SF Express** | Lost | – | 3 roles received, but no agreement on workflow: they want candidates first, contract later (too risky for us). |
| **IAD** | Closed | – | Short-term hiring; their schedule changed abruptly, so no follow-up possible. |

# Contract issues: price is fine, warranty is the sticking point

PRICE

## At or below market

Clients raise no price objections.

WARRANTY CONCERN

**Clients fear we cannot find a replacement within the 60 days after a candidate quits.**

## Our fix: split payment into two installments (e.g. 70/30)

1 **Candidate starts**

Client pays installment 1 (e.g. 70%)

2 **Candidate quits within 60 days**

We interview and present a replacement

3 **No replacement hired within 1 month**

Client does not pay the remaining 30%

Result: replacement risk moves to us. If we cannot deliver a replacement, the client does not pay the second installment.

# Slow contract signing: three causes, and how we speed it up

WHY IT TAKES LONG

1

## Legal review

We are a new company, so clients review the contract carefully.

2

## Who we reach

We mostly reach staff and HR, who need a manager's approval. Many have no headhunting budget, or weigh it carefully.

3

## Candidate supply

For many jobs our talent pool has no matching candidate to show when quoting.

OUR FIX

## When the talent pool has no match yet:

1. Run ads and sourcing on LinkedIn to find candidates.
2. Send candidate profiles together with the service pitch, not the service alone.
3. Use the profiles to push the client to sign sooner.

# How we work with clients

**1 Find leads**

Search LinkedIn, TopCV and similar sites for companies hiring Chinese speakers.

**2 Pitch & negotiate**

Quote and agree the contract terms: price and warranty policy.

**3 Source candidates**

Client agrees and reviews the contract. Search talent pool first, else run ads.

**4 Push the contract**

Send candidate profiles to the client to speed up signing.

Step 3 in practice

## Two real cases

### Keyence

Talent pool has a match

Fresher: 1–2 years of experience, speaks Chinese, male preferred.

**Talent pool** already has suitable candidates

↓

**Source** from the Jarvis Hire talent pool

↓

**Send profiles** to the client to push the contract

### Tasco

No match, so ads

Talent pool could not meet the requirements.

**Run Facebook ads** to find candidates

↓

**Potential candidate responds:** 10+ years of experience, male, speaks Chinese, currently Sales Director at another company

↓

**Send the CV** to the client to push contract talks

Source: sales follow-up notes, as of 1 Oct 2026.

# Unit economics: ~1M VND of ads for a 54–63M VND fee

Tasco case, from first pitch to signed contract and fee

### 1 Pitch & negotiate

~1 month, no cash cost. Client tries free sources, TopCV and LinkedIn before headhunting.

**Cost: time only**

### 2 Source one candidate

Ads find one qualified candidate, enough to push the contract.

**Cost: ~1M+ VND ads**

### 3 Earn the fee

Fee is 15% of first-year salary, paid 50/50: half upfront, half after 60 days of work.

**Revenue: 54–63M VND (50/50)**

**FORMULA WE USE FOR EVERY CLIENT**

| | | |
|---|---|---|
| **Revenue** | Fee % × annual salary | **15% × 360–420M = 54–63M** |
| **Cash CAC** | Ads cost per qualified candidate | **~1M+ VND** |
| **Return** | Revenue ÷ Cash CAC | **~45–60x** |
| **Time CAC** | Pitch to signed contract | **~1 month** |

**STRATEGY TODAY**

**Time first, cash later.** Negotiate at no cost; spend ads only once a client has a real role.

**Source for a paying client.** Talent pool first, then ads, so each ad VND backs a live deal.

**Track the same 4 numbers** per client to see who is worth chasing.

Source: Tasco case, sales notes. Salary implied by fee; return assumes ads cost 1.0–1.2M VND; excludes team time. One case so far.

# Next actions for October

PRIORITY

## Push sales harder

1. **Build a LinkedIn network pool**

   Grow a pool of contacts on LinkedIn so we can reach target companies directly.

2. **Push outreach to close contracts**

   Step up sales outreach to companies with a hiring need and budget, with the goal of closing contracts.

CHANNELS

## Keep what works

| | |
|---|---|
| **Facebook ads**<br>Paid ads, existing channel | Keep |
| **Threads**<br>Organic reach, existing channel | Keep |
| **TikTok**<br>Try new videos | Test |

Source: team plan, as of 1 Oct 2026.

# Next month's new feature: Connect

**1 Information** — AI advantage

Search, collect, summarize millions of documents

**2 Reasoning** — AI advantage

Compare, synthesize, analyze, generate scenarios

**3 Judgment / Experience** — Human edge

What actually matters? What would YOU do? What isn't in the data? Context, values, intuition

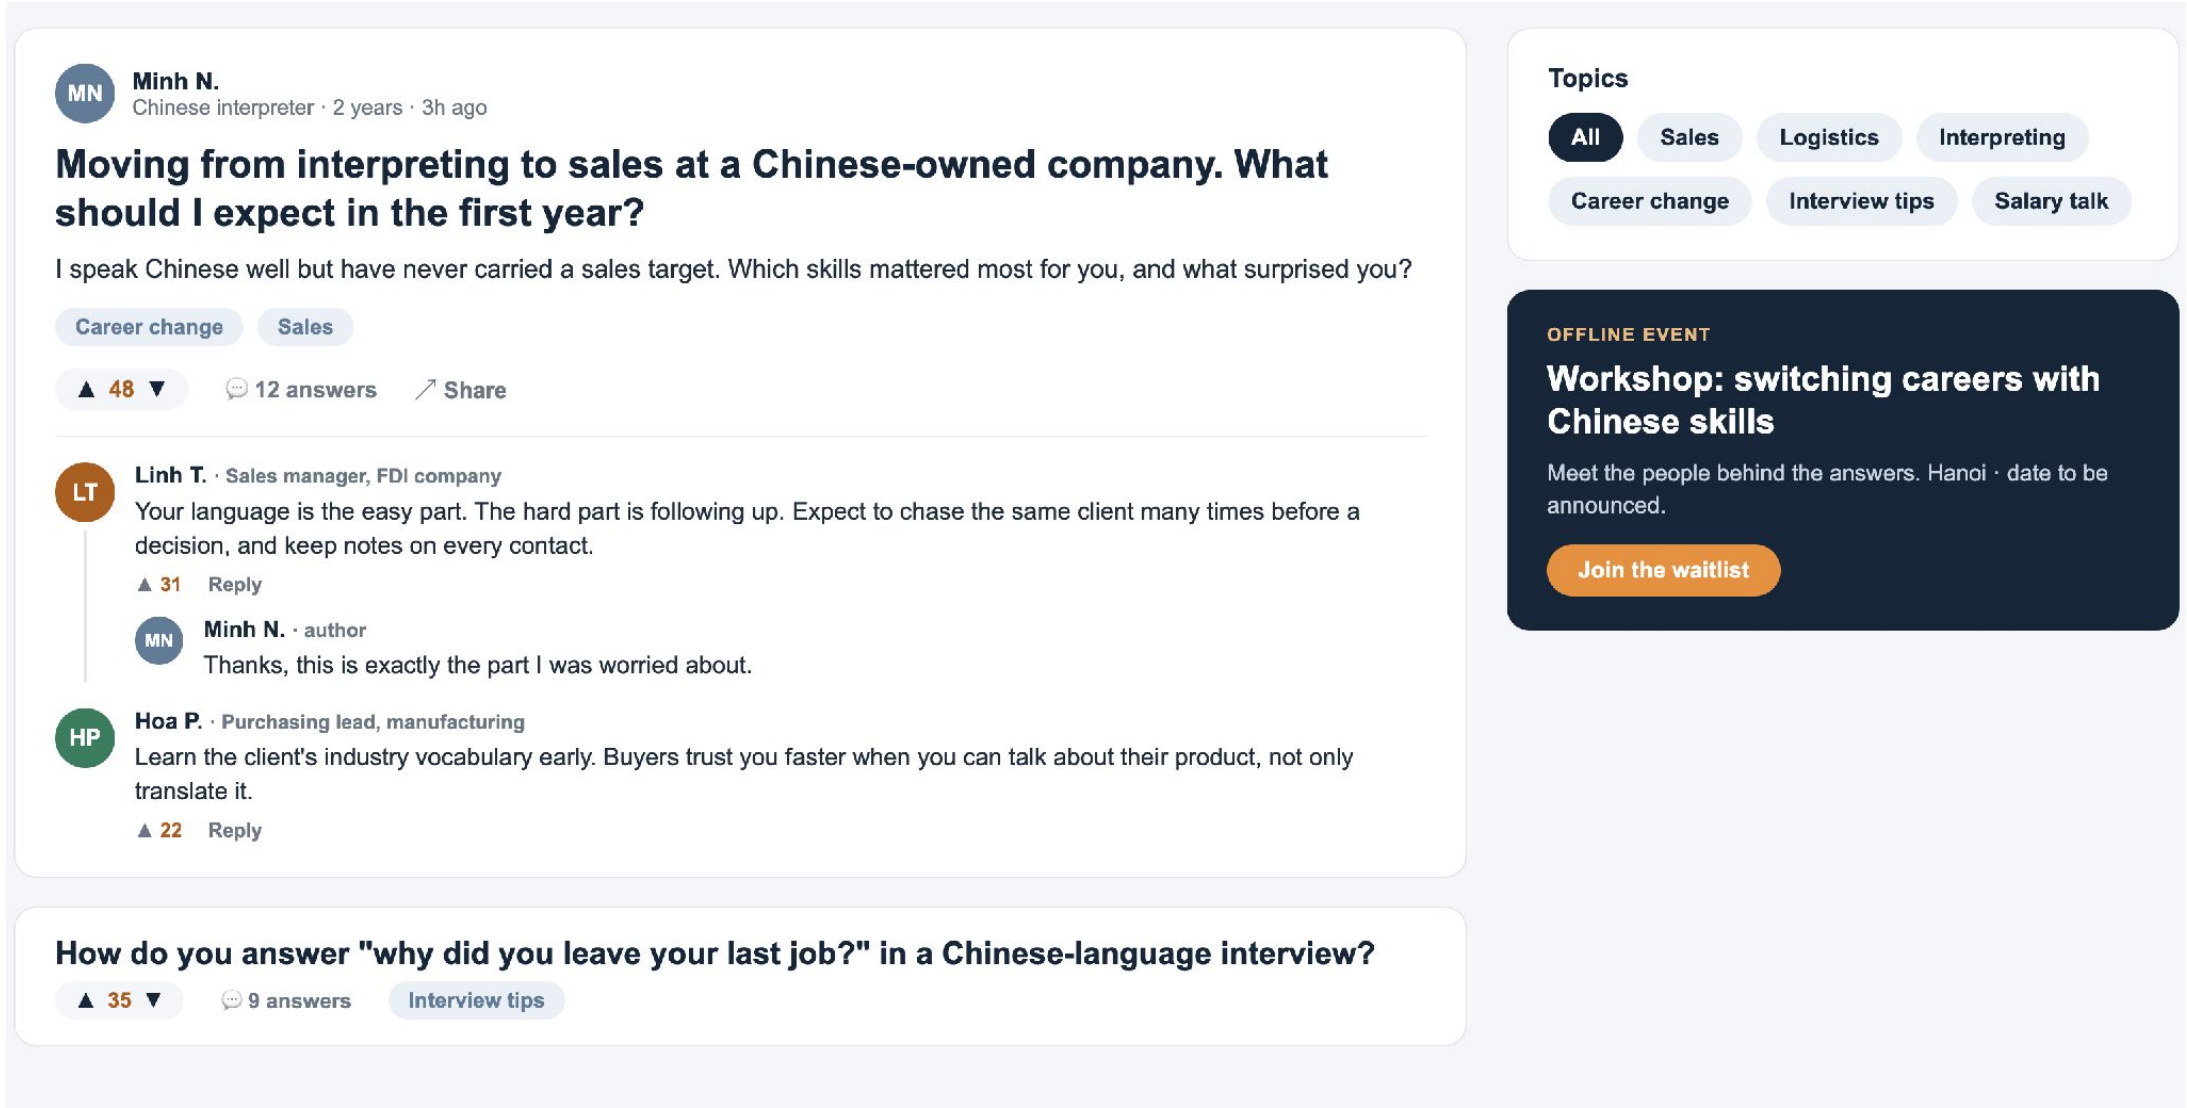

NEW FEATURE · NEXT MONTH

## Connect

A Q&A platform where people share questions and answers about real work experience.

1. Peers ask and answer each other, drawing on lived experience.
2. Built on the Judgment / Experience layer: context, values and what isn't in the data.
3. Offline events such as workshops can bring the community together.

Source: team plan, as of 1 Oct 2026.

**New feature - Connect -** "real questions and answers from people who have done the job."
